Water in Africa Through Everyday Responsiveness

www.waterinafrica.org

Our Mission:

Respond to the issue of water insecurity by making connections—to people, to financial resources, and to partners across the world.

Who We Are:

We are a non-profit partnering with organizations in Africa and the United States to provide clean water to African communities that have none. Our network of almost 400 donors and volunteers continues to grow.

What We've Done:

Since our Founding in 2005, we have raised hundreds of thousands of dollars to drill 21 wells in Africa. This eradicates water-borne illnesses and creates opportunities for girls and women who no longer have to walk miles each day for clean water.

What's On Tap:

We're growing. In 2010 we will complete 12 new clean water systems and continue our tradition of bringing supporters and volunteers from the US to celebrate with each of the villages.
